PROUDLY ANNOUNCING OUR NEW ITINERARIES

We are really excited about our new programme for 2024 and 2025, and we think you will love the new selection of sailings. While our Publications Team puts the finishing touches on our forthcoming Worldwide Brochure, we thought you'd like the first look at the new sailings so we have listed them all in this handy booklet.

Across all our new cruises, you will see that we take a unique approach to creating itineraries. Our team of Journey Planners have arranged port calls at the perfect time to experience incredible events, perhaps witnessing the Perseid Meteor Shower, the spectacular bird migration seen from the Gibraltar Strait and the world's largest population of humpback whales in Canada.

On board, our Joy of the Journey events mean that you will get to know more about your calls too; a perfect example will be learning how to make, and tasting, pastéis de nata before we even arrive into Lisbon, with the help of our expert chefs and our Treats of the Region sessions.

Our Grand Voyages are undoubtedly the standout sailings. Iconic settings, such as in Australia and Tasmania, Easter Island, Vietnam, Myanmar and Singapore, are all perfectly complemented by exotic gems: Bora Bora, Cambodia, Brunei, to name just a few. That's not to forget your in-depth experiences within each port – you might like to go in search of the famous 'Big Five' on a wildlife safari in South Africa, or perhaps immerse yourself in Mumbai's iridescent Holi Festival.

Whether you choose a relaxing break to the Scottish Isles or to join us for an exploration of Iceland's hot springs and waterfalls, and all in between, you can be sure that our smaller ship atmosphere will make your time on board as enjoyable as your time ashore.

We look forward to welcoming you on board.

SMALLER IS BETTER

Our smaller ships allow us to reach more interesting places through narrow fjords, winding waterways and under size-restricted bridges. In our new programme of itineraries, we've continued to do this, seeking out destinations that aren't in reach of bigger ships to give you an experience that's off-the-beaten-track.
